Other Events

ReNew will invest approximately \$138 million for its 51% stake in a 400 MW Round the Clock (RTC) project and receive EPC margins for the development of the project. The current estimated cost of the project is \$1.35 billion and the increase from the previous estimate of \$1.2 billion is primarily due to (a) EPC margins in line with industry trends that would accrue to ReNew; (b) an increase in estimated capex due to inflation, and (c) an increase in taxes that is expected to be recovered through an increase in tariff over the 25 year PPA. Apart from procurement of major wind turbine components, ReNew and its affiliates would undertake all other major EPC works, amounting to an estimated ~US\$ 612 million, for the RTC project.
